SMARTKEY® RE-KEY TECHNOLOGY

THE LOCK YOU CAN RE-KEY IN SECONDS

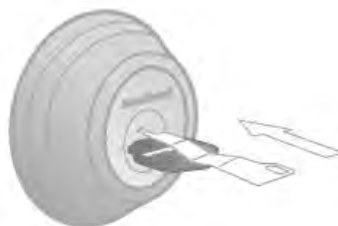

Now you can re-key your locks, quickly & securely, without the extra hassle & cost of removing the lock from the door.

- Increase jobsite security
- Control jobsite keys
- Reduce callbacks / simple on site re-keying
- Homeowner peace of mind

1 Insert functioning key & turn 1/4 turn clockwise.

2 Insert & remove the SmartKey learn tool. Remove functioning key.

3 Insert new key & turn 1/2 turn counter-clockwise. Done. *Your lock is now re-keyed!*

Functioning Key

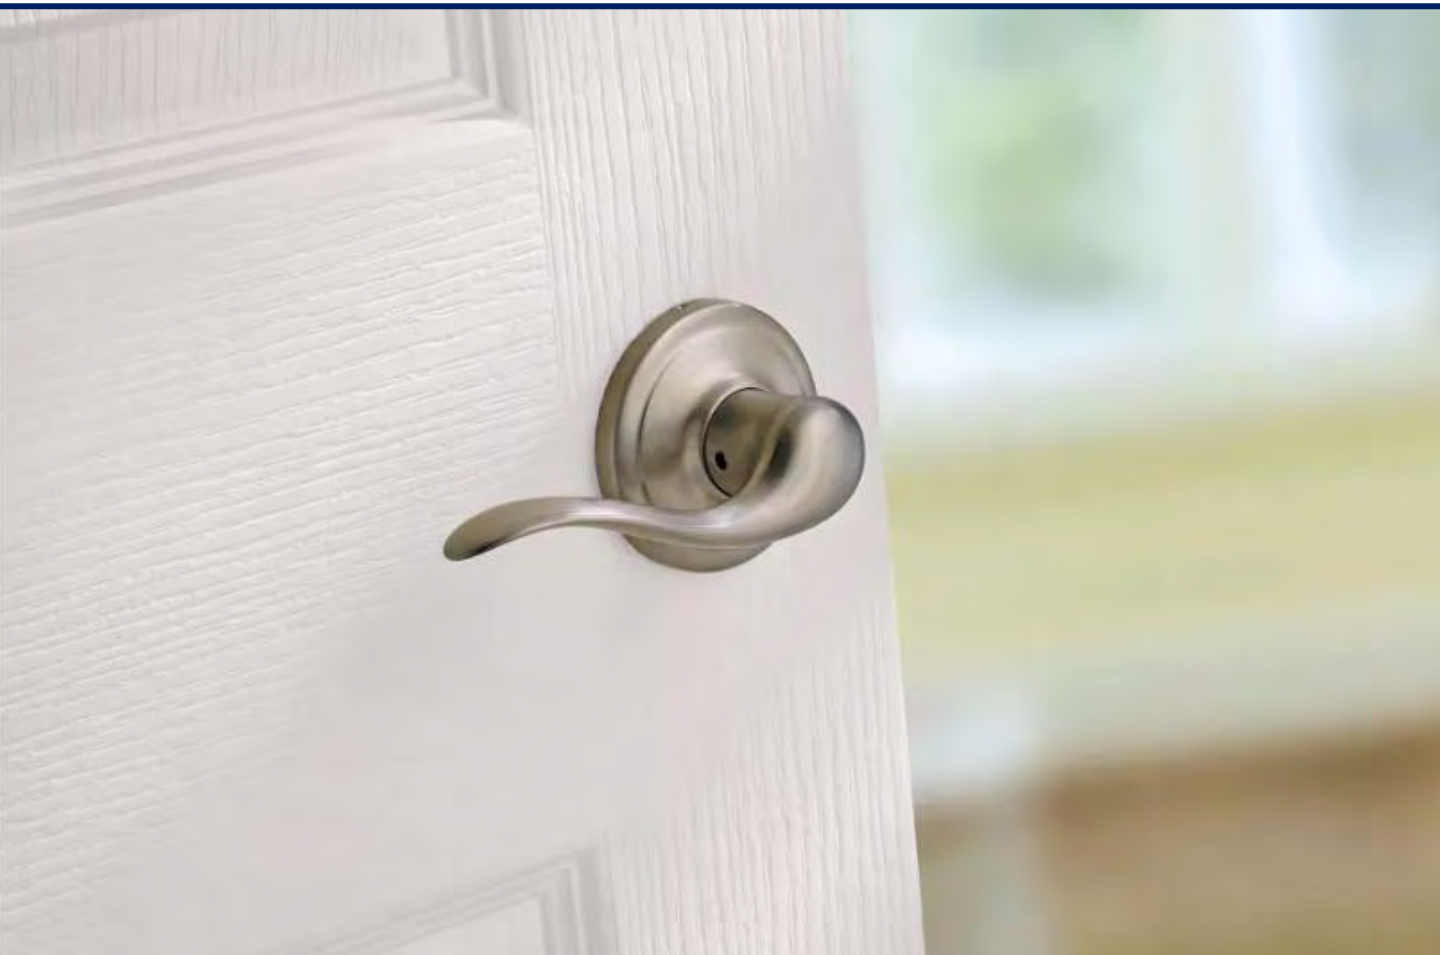

SmartKey Learn Tool

New Key

! You must have your functioning key & the learn tool for the system to work.

Bacteria can double every 20 minutes on unprotected surfaces, but Kwikset Door Hardware with Microban product protection works to continuously fight off microbes.

Benefits of Kwikset® Door Hardware with Microban® Technology

- Door hardware is 99.9% cleaner than knobs without Microban.
- The antimicrobial coating last for the lifetime of the hardware finish, so you can worry less and feel more secure in your home.
- No need to clean door hardware - 24/7 Antimicrobial protection.

Kwikset with Microban product protection is effective against a broad spectrum of bacteria.

*Limited to bacteria Microban is effective against.

200 SERIES PATIO DOORS WITH LOW-E GLASS PERMA-SHIELD GLIDING

Standard (with most plans)

200 Series Patio Doors

A tried and true classic, these doors are protected in and out with rigid vinyl cladding to give homes a contemporary look and energy-saving performance, while keeping maintenance to a minimum. *Interior color matches exterior finish.*

Smooth Operation

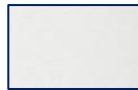

Dual ball-bearing rollers on door panels provide smooth gliding operation with self-contained leveling adjusters.

SmartSun™ Glass

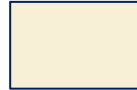

Has the benefits of Low-E glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight shine through.

ANDERSEN 200 SERIES WINDOWS with LOW-E GLASS

Standard

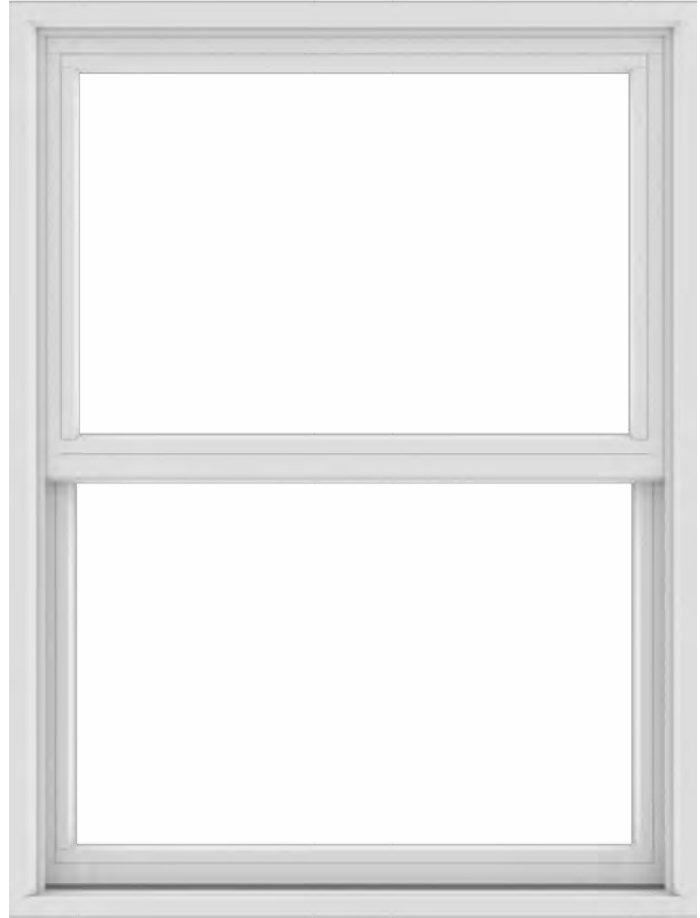

Double-Hung Windows

These windows are weather resistant for greater comfort & efficiency. The exclusive Andersen Perma-Shield[®] system gives your windows a tough, protective shell that safeguards the wood inside. It repels water, resists dents & stays beautiful for years.

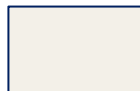

Double-hung windows tilt-in for easy cleaning. Narrow profiles maximize light and view. Full insect screens are included. *Clear pine interiors or white interior finish.*

SmartSun[™] Glass

Most people can enjoy optimal energy performance and comfort with Low-E/Low-E4[®] glass. Low-E glass reflects heat in the summer and helps keep heat inside in the winter, making this a good choice in climates where both heating and cooling costs are a concern. Tempered safety glass available in bathrooms.

DRYWALL BULLNOSE

Optional

NO-COAT 3/4" BULLNOSE

NO-COAT BULLNOSE corners offer the strength and durability of NO-COAT's SLAM design with a superior aesthetic finish.

Features/Benefits

- Perfect ridgeless radius
- Eliminates transition angles and bead ridges for superior aesthetic result
- Will not dent - handles severe impacts
- SLAM corner design ensures strength & durability

CASED OPENINGS

Standard

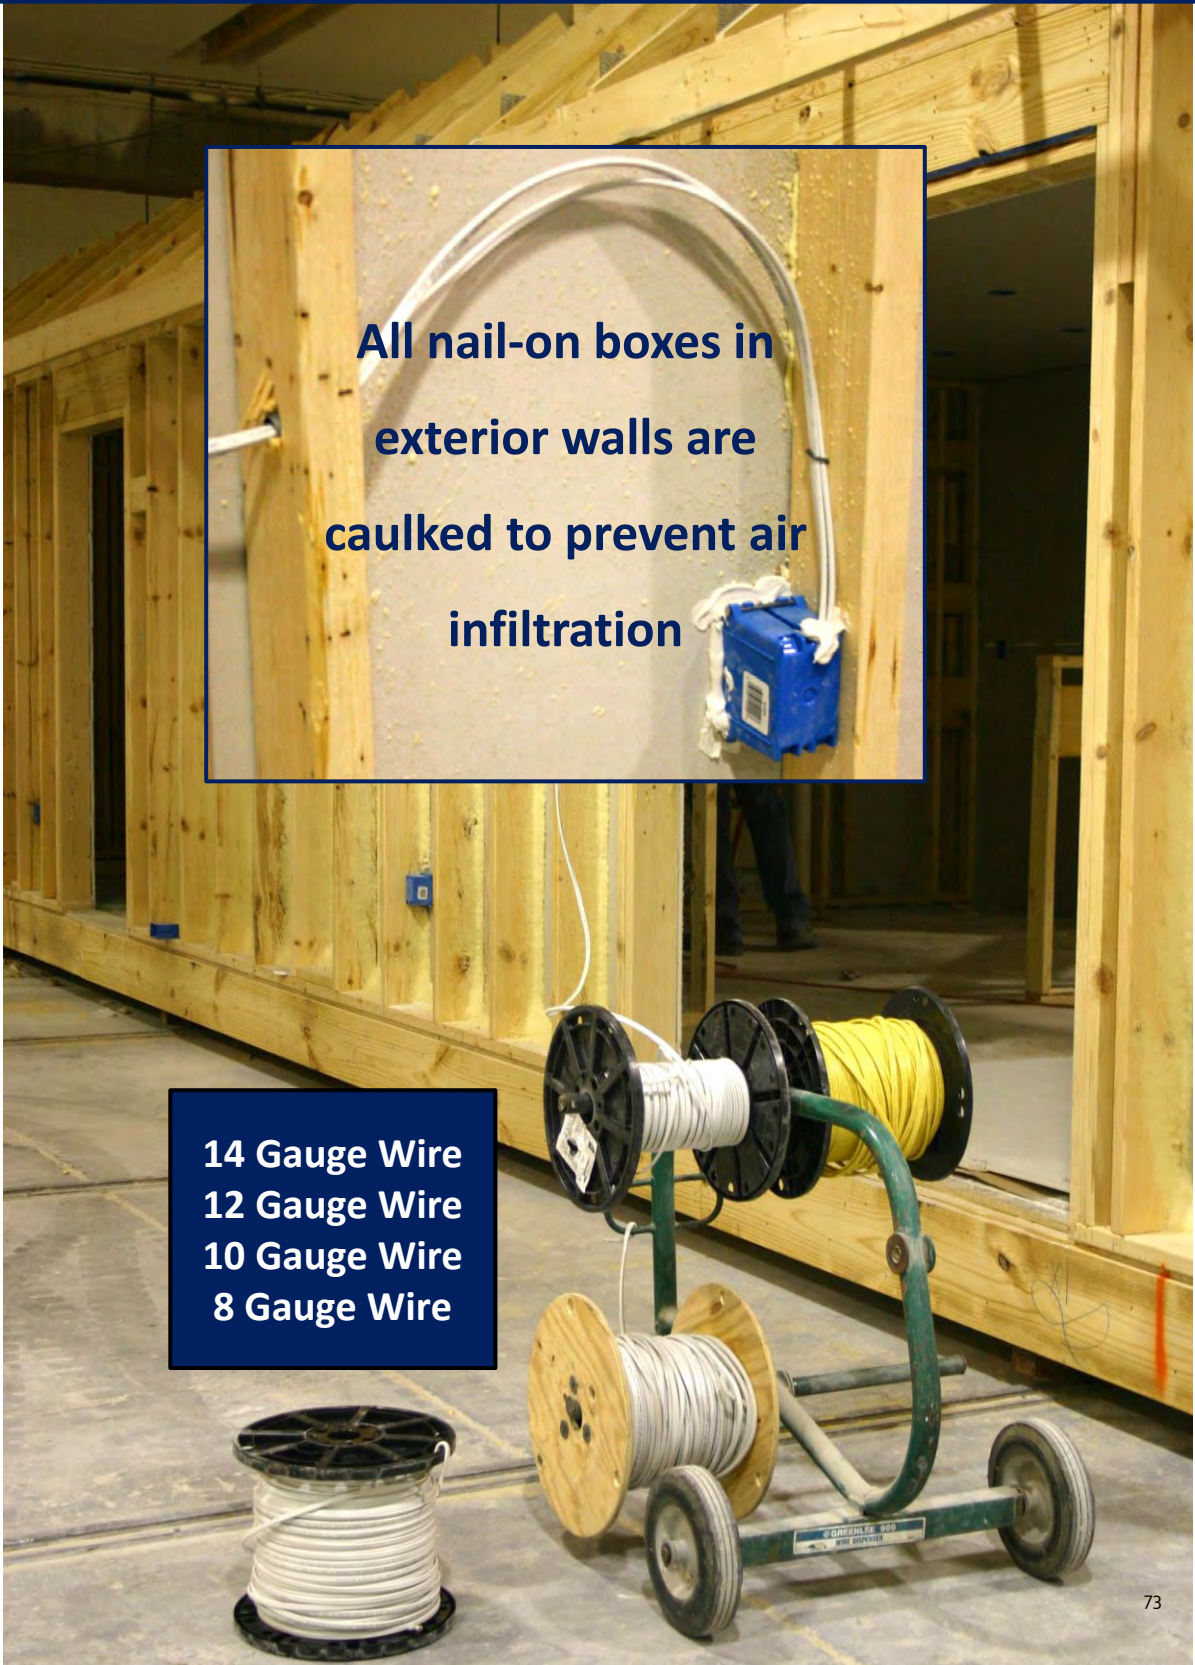

EASY-ARCH TRUE ELLIPTICAL ARCHWAY

Optional

Features/Benefits

- All Easy-Arch products are made from high quality, ASTM A653, structural grade 33, hot-dipped galvanized steel (coating designation G40)
- Preformed & precut
- Ready to Install
- Perfect Shapes
- Quick & Easy

All nail-on boxes in exterior walls are caulked to prevent air infiltration

Coastal Collection

This finish process consists of a semi-transparent pigmented stain evenly applied to all finished components resulting in a color washed finish with slight visibility to the wood character and tone. Pigmented stains are semi-transparent; meaning the wood color and texture will affect the overall finish and will be slightly apparent. The texture of wood species with open grain, such as oak, will be more apparent compared to the closed grain character of maple. A satin finish oven-cured top-coat completes the process and provides a superior sealed product.

TRADITIONAL MULLION DOORS

Optional

Traditional Mullions

- Solid dividers and clear glass
- Clear glass insert is safety glass (laminated or tempered)
- Clear glass may be replaced with textured glass
- NOTE: Shelves may not align with decorative mullion grid detail.

Matching Interior Finish

- Cabinets with glass inserts include plywood construction (veneered in species indicated on order)
- Components upgraded to plywood include: interior, end panels, tops, bottoms, backs and shelving stained or painted to match the exterior color of the cabinet

PRAIRIE MULLION DOORS

Optional in Evelyn & Henning Doors ONLY

Prairie Mullions

- Solid dividers and clear glass
- Clear glass insert is safety glass (laminated or tempered)
- Clear glass may be replaced with textured glass
- Shelves may not align with decorative mullion grid detail
- **Available in Evelyn & Henning ONLY**

Matching Interior Finish

- Cabinets with glass inserts include plywood construction (veneered in species indicated on order)
- Components upgraded to plywood include: interior, end panels, tops, bottoms, backs and shelving stained or painted to match the exterior color of the cabinet

SEEDY GLASS DOORS

Optional

Seedy Glass Inserts

- Antiqued, speckled pattern
- Slightly obscure
- Textured safety glass (laminated or tempered) installed into frame
- Smooth side of glass is facing out, may be reversed in field
- Please view samples of decorative glass for proper representation

Matching Interior Finish

- Cabinets with glass inserts include plywood construction (veneered in species indicated on order)
- Components upgraded to plywood include: interior, end panels, tops, bottoms, backs and shelving stained or painted to match the exterior color of the cabinet

WATER GLASS DOORS

Optional

Water Glass Inserts

- Subtle wave pattern
- Mostly clear
- Textured safety glass (laminated or tempered) installed into frame
- Smooth side of glass is facing out, may be reversed in field
- Please view samples of decorative glass for proper representation

Matching Interior Finish

- Cabinets with glass inserts include plywood construction (veneered in species indicated on order)
- Components upgraded to plywood include: interior, end panels, tops, bottoms, backs and shelving stained or painted to match the exterior color of the cabinet

CLEAR GLASS DOORS

Optional

Clear Glass Inserts

- Cabinets with glass inserts include plywood construction (veneered in species indicated on order)
- Components upgraded to plywood include: interior, end panels, tops, bottoms, backs and shelving stained or painted to match the exterior color of the cabinet

KITCHEN CABINET COMPANIES AREN'T ALL THE SAME. MAKE SURE YOU PICK ONE THAT HAS A POSITIVE IMPACT ON THE ENVIRONMENT.

A recent study by Hanley-Wood found that environmental sustainability is one of the top reasons cited when selecting cabinets

KITCHEN CABINET MANUFACTURERS ASSOCIATION
ENVIRONMENTAL STEWARDSHIP PROGRAM (ESP)
ALL PRODUCTS IMPACT THE ENVIRONMENT
FOR ESP PROGRAM CRITERIA, VISIT KCMA.ORG

RESPONSIBLE PROCESS RESOURCE MANAGEMENT:

Cabinet manufacturers are checked to ensure they are dealing with wastes in responsible, sustainable ways and that they have a comprehensive recycling program in place.

ENVIRONMENTAL STEWARDSHIP:

Cabinet manufacturers are checked to ensure they have a written policy stating their commitment to environmental quality and that they attempt to ensure their vendors also engage in environmentally sustainable practices.

To earn the KCMA Environmental Stewardship Program Certification Seal, companies need to score 80 out of a possible 110 points in these categories:

COMMUNITY ENGAGEMENT:

Cabinet manufacturers are examined to ensure they demonstrate community involvement and observe all federal, state and local environmental regulations.

SUSTAINABLE PRODUCT RESOURCE MANAGEMENT:

Cabinet manufacturers are investigated to ensure they are purchasing materials from reputable companies with sustainable forestry programs.

AIR QUALITY:

Cabinets are inspected to ensure they meet safe emission standards for formaldehyde and other hazardous air pollutant levels.

For a full list of requirements and to learn more about how you can become ESP Certified, visit our website at www.kcma.org.

Yorktowne

A LOT OF KITCHEN CABINETS LOOK ALIKE, HOW DO YOU PICK ONE YOU CAN TRUST?

This Old House says you shouldn't buy a cabinet without the KCMA Certified Seal

ANSI/KCMA A161.1

DRAWER:

We load drawers at 15 pounds per square foot and operate them through 25,000 cycles, representing 20 years of regular use.

DOOR:

We load a cabinet door with 65 pounds, cycle through open and close ten times and inspect for visible signs of looseness.

Why?

To earn the KCMA Certified Seal, kitchen cabinets must be put through a series of 15 tests. During these tests, cabinets are checked for structural strength and finish quality. The cabinet boxes as well as drawers and doors are tested throughout the process.

STRUCTURAL:

We load wall-mounted cabinets to 600 pounds and look for structural failure. These tests verify the integrity and strength of the cabinets.

FINISH:

We expose the finish to vinegar; lemon, orange and grape juices; tomato ketchup; coffee; olive oil; 100-proof alcohol; mustard; and to long periods of exposure to a detergent and water solution.

The KCMA A161.1 Quality Certification Seal makes it easy to recommend cabinets. In fact, this seal is so trusted, *This Old House* recommends only buying cabinets with the KCMA A161.1 Quality Certification Seal.

Make sure your cabinets are recommended. Get certified today!

For more information visit the website www.kcma.org/certifications/about

FORMICA COUNTERTOP EDGE PROFILES

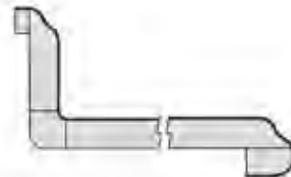

STANDARD E-TOP 2000 EDGE

The 90°/90° oval, flat-front roll nose complements today's cabinets creating a luxurious look. The laminate wraps around the front nose giving added protection. More curves, softer flowing lines, just the right touches.

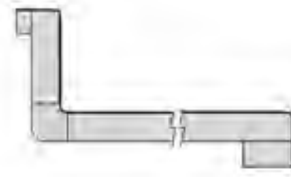

OPTIONAL AMORE' EDGE

This beautiful profile gives a classic edge to your kitchen or bath that emulates the luxurious look of stone. Shown with flat cap. Available with profile edge.

OPTIONAL AEGEAN EDGE

The Aegean gives you a sleek, eased edge without the black line common to many laminate countertops. Shown with flat cap. Available with profile edge.

VINYL LAP SIDING .42

Standard

Oak Harbor® Vinyl Siding

makes it easy to create an exterior with a fresh, laid-back style, while increasing a home’s value with its durability and beauty. With a palette of numerous colors, deep cedar embossed woodgrain texture, and contemporary low-luster finish, it conforms naturally to the design of any home. Maintenance is minimal, and repainting is unnecessary.

Optional

FairField® Vinyl Siding

With the most diverse selection of rich colors and deep-etched woodgrain patterns, FairField® vinyl siding offers you the highest-end styles to express yourself and give your dream home a beautiful new exterior. All FairField® products are made with Style Crest®'s proprietary tri-extrusion technology, which produces some of the highest quality vinyl siding available in the world. It combines the vibrant color of virgin cap stock with the durability of a premium-grade recycled PVC-blend core. The result is an exceptionally low-maintenance, long-lasting and durable choice in exterior home cladding.

STREAK  **Fight**er® **Algae-Resistant Shingle Technology**

The ultimate in stain protection.

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

SHINGLES
Standard

NAILTrak® Shingle Technology

The bond that holds it together.

For more than a decade, NailTrak has improved shingle installation by providing a nailing area three times wider than that of a typical laminate shingle. This increases efficiency and accuracy in installation, providing homeowners greater peace of mind. Landmark® shingles also feature our specially-formulated Quadra-Bond® adhesive, providing industry-leading resistance to delamination. Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that allow your roof to stand the test of time.
